

Name _____

Date _____

Read the word problem.

Draw and label.

Write a number sentence and a statement that matches the story.

1. Toby dropped 12 crayons on the classroom floor. Toby picked up 9 crayons. Marnie picked up the rest. How many crayons did Marnie pick up?

2. Of the students on the playground, 7 went back into the classroom. If 11 students stayed outside, how many were on the playground at first?

3. At the play, 8 students from Mr. Frank's room got a seat. If there were 17 children from Room 24, how many children did not get a seat?

4. Simone had 12 bagels. She shared some with friends. Now, she has 9 bagels left. How many did she share with friends?

Answer Key

1. Labeled drawing and statement; $12 - 9 = 3$ or $9 + 3 = 12$
2. Labeled drawing and statement; $11 - 7 = 4$ or $7 + 4 = 11$
3. Labeled drawing and statement; $17 - 8 = 9$ or $8 + 9 = 17$
4. Labeled drawing and statement; $12 - 9 = 3$ or $9 + 3 = 12$
